Omorovicza.

BUDAPEST

Luxurious brand that incorporates healing properties of Hungary's thermal waters. They incorporated the properties of the healing waters into a skincare range. Patented complex used in products delivers the therapeutic minerals to the deepest layers of the skin making it firmer, suppler and younger looking.

Natura Bissé

Barcelona

Multiple awarded as World's best Spa brand, it's rethinking beauty since 1979 in Barcelona. They blend innovation, pioneering technology and high concentrations of active ingredients with deep emotional sensitivity and the power of touch.

L I G N E ST BARTH

Born in the Caribbean in 1983, the oils, lotions and creams of Ligne St Barth embody the islands' way of life. Skincare range is inspired by the richness of tropical flora, combines a traditional understanding of the effectiveness of plants with cutting-edge production methods.

Specially created Thai products for use in massage with various therapeutic properties to efficiently relief muscle soreness with the heating sensation.

HEALING WATERS FROM ANTIQUITY

SCIENCE THAT MATTERS

The Omorovicza journey began when the **healing properties of Hungary's thermal waters** were discovered. Because of the unique geological features of the region, waters absorb beneficial minerals more effectively and that unique mix of minerals and trace elements make them incredibly healing.

With Hungarian Laboratory of dermatology they incorporated the properties of the healing waters into a skincare range. Patented complex - Healing Concentrate™, used in products, delivers therapeutic minerals to the deepest layers of the skin.

The results are nothing short of extraordinary: firmer, suppler & younger looking skin.

ZERO NASTIES POLICY: all products exclude ingredients such as parabens, glycols, mineral oils, silicone, phthalates, sodium lauryl sulphate, synthetic colours, synthetic fragrances or chemical sunscreen.

HYDRO-MINERAL

A collection that innovatively delivers the unique combination of restorative minerals deep into the epidermis for firmer, suppler and more youthful-looking skin.
